ITINERARIES. Aleksandar Stanojlović is working on
inneraries and asks for contribution of a personal
of Yugoslav history in a tour from the Museum of
of Yugoslavia history to Tito's Mausoleum. What is post
history? What is history? Who makes monuments?
Who believes in historical facts? Who was Tito?

DARTING FROM SIDE TO SIDE. Stephan Kurr
turn he will take a photograph of the new direction.
DECLINE OF THE HYPE ?! Maja Ćirić invites the
public to investigate the "Belgrade palace", which,
belonging to another time and space, generates
the condition to produce new relationships instead
of talking about the decline of history. Let us meet
in the void found between the local and the univer-
sal...let's see what happens...

PLAY!MAP. Ricarda Wallhäuser & Matthias Roth in-
vented a game to create unknown paths through a
known city or everyday walks through a foreign
town. The players mark their preferred places on a
map of their hometown. These 'mental maps' are
transferred to the map of the unknown city and the
players try to find the described locations. The parti-
cipants have sent their 'mental maps' to the berlin
players, who tried to find the marked places in
Berlin and bring a documentation to Belgrade.
Here they invite the public to join them on a walk
along their 'mental paths' from Berlin.

STRICTLY BALTIC by Nenad Andrić is an almost
'all-exclusive' programme designed and designated
solely for persons originating from the Baltic Sea
region. To claim your eligibility and for more details
please contact the Biro or Nenad Andrić directly.

On the last day there is the final manifestation
UNDER THE BRIDGE "Gazela" in Novi Beograd.
All participants are present and take part in the
shaping of the place, using it according to
their needs and wishes.
You are invited to join!

Some of this actions have conceptual character, others
are simply invitations for a visit. Some walks are public,
some ask for active participation, others are personal
and private. Every evening there is a meeting with
everybody in the restaurant.

Na zajedničkim šetnjama, turama i posetama
učesnici istražuju mnoge aspekte u svakodnevnom
životu i njegovim mogućim interpretativnim mode-
lima, bili oni individualni i lični, formirani od strane
tradicije i istorije, socijalno uspostavljeni i planirani
od strane države.

Jedan broj šetnji ima konceptualni karakter dok su
neke jednostavni pozivi za posetu, ostale su javne i
zahtevu aktivno učešće ili su privatne i lične. Svaki
dan u većem ili manjem stepenu postoji mogućnost da se
učesnici susretnu u restoranu.

Poslednjeg dana jeste finalna manifestacija
UNDER THE BRIDGE, ispod mosta "Gazela" u
Novom Beogradu. Tamo su prisutni svi učesnici,
oni obilikuju mesto i prostor, koriste ga po svojim
potrebama i željama.
